Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Studies and Methods of Teaching in Prussian Schools The elementary schools of Prussia, which for some time have attracted, and still continue to attract, the attention of every observer of and well-wisher to education, did not attain their present superior state at once, but by degrees. The progress of their improvement was at first very slow, and almost imperceptible; but in latter times it has made rapid strides, and become obvious to every one who has directed his attention to the education of the laboring classes. Up to the year 1770, the whole system of education in Prussia was in no way superior to that adopted in England, nor was it materially of another character. The only difference which then existed referred to the grammar-schools and the universities. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
